

September 06, 2025:

American people, and people of the world.

I am writing to record into the public record that there is a very large gang of criminals operating from an illegal spy feed that is originating inside of the American national security surveillance system.

The official publicly known system is called 'Star Shield' and it is operated by the United States as a military arm of the publicly available satellite internet stream known as 'Star Link.'

Information about Star Shield can be found in the news already, and I am alerting the public that the Donald Trump's campaign began to show me that it was using this technology to spy on us about three years ago.

Since that time, the Donald Trump campaign has been re-elected to be the Donald Trump presidency and this spying presence has continued to exert itself as some form of unnatural and highly immoral system of intimidation against our home.

I am writing to inform the world in a public record that Donald Trump's team is illegally using the American national security spying technology to watch the political threats against Donald Trump and to force a heavy hand of criminals to exert a presence around the homes of his political enemies at all times.

I am alerting law enforcement that Donald Trump's team is using military power to cause harm to political threats and honest American citizens that are opposing a criminal takeover of the United States government.

I am alerting the public through this public forum that Donald Trump's team is actively using military power to silence his political opponents and the opponents of a criminal takeover of American law enforcement.

I am alerting the world that Donald Trump's team is actively carrying out treason against the United States of America and they are exhibiting a constant threat against our home.

These are messages of great importance. I began as a supporter of Donald Trump and quickly ended my support of his campaign after they began attacking our home in an effort to shape and mold my political speech.

People of the world, Donald Trump is a criminal that is being controlled by and/or is controlling a large criminal network inside of the federal government of the United States. I can firmly attest to the facts that this criminal network is using normal people, normal employees of the federal government, and regular people that are near to our home and family to express its spying activities to us in our life.

I am alerting the world the the American government has turned against the American people.

Be it known this, the 6th day of September, 2025:

America has been captured by terrorists that are now running the American government.
